KENNETH YANDAN

GoHighLevel Automation Specialist

CRM Architecture | Funnel & Workflow Systems | 3+ Years in GoHighLevel

PROFESSIONAL SUMMARY

Results-driven GoHighLevel Automation Specialist with 3+ years of hands-on experience architecting and optimizing GHL ecosystems, CRM administration, workflow automation, lead nurturing funnels, and business process optimization. Delivered 200+ landing pages and automations across 100+ projects for agencies and growth-focused brands, building scalable systems that follow up so clients don't have to. Deep expertise across GoHighLevel, Zapier, ActiveCampaign, HubSpot, multi-channel marketing automation, pipeline management, and platform integrations.

PROFESSIONAL EXPERIENCE

BIG LEAP BRANDS

2025 – Present

GoHighLevel Automation Specialist

- Architect and manage end-to-end GoHighLevel CRM systems and automation environments
- Design and deploy high-converting websites, funnels, landing pages, forms, and booking calendars
- Engineer email and SMS workflow sequences optimized for lead conversion and retention
- Diagnose and resolve complex integrations, API connections, and platform workflows
- Scale business operations through systematized processes and automation infrastructure

AUTOMATION AGENCY

2024 – 2025

Marketing Automation Specialist

- Built and optimized GoHighLevel workflows and multi-channel marketing campaigns
- Administered client CRM systems, pipeline automations, and intelligent lead routing
- Created high-performance landing pages and sales funnels to maximize conversions
- Integrated platforms using Zapier, webhooks, and API connections for seamless data flow
- Authored SOPs and process documentation to support scalable agency delivery

VXI CLARK PAMPANGA

2022 – 2023

Technical Support Representative

- Delivered expert technical support and rapid issue resolution with a customer-first approach
- Troubleshoot software, connectivity, and platform issues for a diverse client base
- Maintained consistently high satisfaction scores through clear, professional communication
